---

## SUMMARY

Senior Frontend Engineer with 6+ years of experience building scalable enterprise web applications using React, Next.js, TypeScript, and Vue.js. Strong background in frontend architecture, reusable component systems, and complex business workflows, with experience across internal systems, customer-facing platforms, and bilingual RTL/LTR products.

---

## WORK EXPERIENCE

### Senior Frontend Engineer

Jul 2025 - Present

Digitas ME, Dubai | Remote

- Delivered frontend solutions across enterprise products, including the BRJ recruitment platform and KAFD Customer Portal, delivering frontend features for recruitment, portal, and internal document workflows.
- Built a legal Document Management System from scratch with React, TypeScript, and Vite, including authentication, scoped access control, drafting and approval flows, and RTL/LTR support.
- Built a reusable atomic design component library and an interactive structure tree, improving UI consistency and supporting scalable management of hierarchical legal documents.
- Contributed to some .NET backend endpoints and integration updates, helping support end-to-end delivery.

### Senior Frontend Engineer

Mar 2024 - Jun 2025

Walaplus, Riyadh | Remote

- Rapidly mastered Vue.js framework and Composition API to deliver multiple production applications using TypeScript and Pinia for state management.
- Led technical hiring process using React and JavaScript assessment criteria, successfully recruiting software engineers while establishing Git workflow and code review standards.
- Architected and developed multiple client-facing applications using both Vue.js and React, taking full ownership from requirements to production deployment

### Frontend Engineer

Jan 2021 - Mar 2024

Vezeeta, Cairo | Hybrid

- Contributed to product releases using React, Redux, and Next.js, implementing responsive design and cross-browser compatibility for healthcare applications.
- Contributed to brainstorming and strategy meetings with Software engineers and Product owners to determine ideal methods to meet project goals and business needs.
- Built reusable component libraries with React Hooks, Styled Components, and Storybook, reducing development time by implementing design system principles.

### Frontend Developer

Feb 2020 - Jan 2021

SWISO Software development, Alexandria | Remote

- Developed a comprehensive analytics dashboard using React, implementing query builder functionality, responsive chart generation with Chart.js, and multiple export formats.
  - Built dynamic no-code form builder integrated with workflow system enabling non-technical users to create and publish data collection forms.
- 

## EDUCATION

### Bachelor of Science in Computer and Information Sciences

Sep 2014- Jul 2018

Ain Shams University, Cairo

- Graduation Project: Spam mail detection, Grade: Excellent
- 

## ADDITIONAL INFORMATION

### Technical Skills:

- Frontend: React.js, Next.js, Vue.js, TypeScript, JavaScript (ES6+), Redux, Zustand, Pinia, TanStack Query / React Query, Zod, Storybook
- Styling & UI: HTML5, CSS3, SASS, Styled Components, Tailwind CSS, Bootstrap
- Tools & Testing: Git, Vite, npm/yarn, Jest, React Testing Library, ESLint, Prettier

### Languages: English, Arabic
